The capital city of New Delhi is reflects a true showcase of the ancient and modern India. It features rich architecture, historical monuments, majestic buildings, museums, gardens and cultural extravaganza on one hand; and tall skyscrapers, diplomatic enclaves and well-planned townships on the other. New Delhi is host to numerous offices and headquarters of leading government and private sector companies in India.

Located in heart of New Delhi, Pragati Maidan is a world-class exhibition centre which hosts a plethora of national and international exhibitions. Pragati Maidan is well-connected and can be reached easily through Metro. Taxis are also a convenient mode of commuting to Pragati Maidan for visitors.

WELCOME TO POWER-GEN INDIA & CENTRAL ASIA 2012

The 11th edition in the highly-successful series organised by PennWell Corporation, USA and Inter Ads Exhibitions, India.

A landmark event in the Indian power sector, POWER-GEN India & Central Asia 2012 is being supported by the Ministry of Power, Government of India. POWER-GEN India & Central Asia is co-located with Renewable Energy World India and HydroVision India. Together these events address India's Power Generation, Renewable Energy and Hydropower challenges respectively.

Keeping in view India's rising demand for energy consumption and the exponential growth required in the power sector to meet the desired targets, POWER-GEN India & Central Asia 2012 seeks to address the important technical and logistical issues facing the Indian government's ambitious plans to modernize its power infrastructure.

The 2011 event witnessed:

- Around 7,000 attendees
- Nearly 300 exhibiting companies
- Representation from 40 countries

WHY VISIT?

- An established platform for meeting major players in the Indian and international power sectors.
- The trade show floor features a large display of state-of-the-art products and services.
- High level international trade conference, with an eminent panel of Advisory Council, covering strategic topics.
- An opportunity for buyers and sellers to enhance business prospects.
- Network & update yourself with latest industry trends.

INTERNATIONAL CONFERENCE

POWER-GEN India & Central Asia 2012 will host a high-level conference renowned throughout the Indian power market. The 2012 conference theme will be 'Switching on India's Power Future.' The conference is complemented by the region's largest showcase of products and services displayed by the world's leading power industry manufacturers and suppliers.

The conference will witness participation from technocrats, industry leaders and senior government officials, who are veterans in the field of power and its related sectors.

The conference programme is designed to address strategic power issues, stimulate government/industry interaction and create an opportunity to network with market leaders.

The international conference has an eminent panel of the Advisory Council, and is attended by distinguished delegates and speakers drawn from diverse sectors such as government, academia, research & industry. The dedicated conference programme together with the high-profile of the conference speakers ensures a high-level of attendance.

The Advisory Council will be chaired by Mr. B.K. Chaturvedi, Member (Energy), Planning Commission.
